ACADEMIC & CAREER OBJECTIVE

A highly motivated Computer Science graduate and Software Engineer seeking admission to the Master's in AI Engineering program at Université Saint-Joseph (USJ). Offers a strong foundation in backend frameworks (Java, Spring Boot, Laravel) alongside professional experience utilizing frontend skills, WordPress, and AI workflows (Claude AI). Driven to advance academic knowledge in machine learning and data analytics to engineer intelligent system solutions.

PROFESSIONAL EXPERIENCE

Software Engineer (Developer) June 2025 – Present

ITXI, Beirut, Lebanon

- Design, develop, and maintain software solutions, utilizing frontend and advanced technical skills to deliver responsive user experiences.
- Incorporate Claude AI tools to optimize code quality, streamline debugging, and automate technical development lifecycles.
- Utilize WordPress frameworks alongside custom configurations for agile web application layouts and enterprise deployment.
- Collaborate on full-stack assignments to manage secure data logistics and improve application workflows.

Web Development - Laravel Intern (Remote) Dec 2023 – May 2024

Xpertbot, Estonia

- Built scalable RESTful APIs using Laravel MVC architecture and implemented token-based authentication.
- Collaborated within agile environments using Git and GitHub for structural repository version control.

EDUCATION

Antonine University Sep 2022 – Sep 2025

Bachelor of Technology in Computer Science — Hadath, Baabda, Lebanon

ACADEMIC & PERSONAL PROJECTS

Valorant Match Prediction & Playstyle Analysis | Python, Scikit-learn, XGBoost, Pandas May 2025

- Processed 1,560 match logs via Riot API; built predictive ML models (Random Forest, XGBoost) up to 51.7% accuracy.
- Applied unsupervised ML (PCA, K-Means, DBSCAN) for tactical playstyle clustering and outlier detection.

Delivery Management System | Laravel, MySQL, Bootstrap, Firebase, APIs May 2025

- Developed real-time logistics platform with GPS tracking (Google Maps API), live chat (Firebase), and payment gateways (Stripe, Coinbase).

Medical Appointment Website | React, Laravel, MySQL May 2025

- Built full-stack medical platform with responsive practitioner search dashboards and secure role-based client authentication.

Port Management System | Java (OOP) May 2023

- Engineered desktop scheduling software managing manifest tracking and staff shifts applying core OOP principles.

TECHNICAL SKILLS

Programming & Frameworks: Java OOP, Spring Boot, Python, C++, JavaScript, PHP, Laravel, SQL, React.js, React Native.

AI & Development Tools: Claude AI, WordPress, Frontend Skills, Git, GitHub, Azure DevOps, UX/UI (Figma), RESTful APIs.

Core Competencies: Problem Solving, Data Analysis, Teamwork, Critical Thinking, Photoshop, Illustrator.

CERTIFICATES

Web Development Internship Certificate, XpertBot May 2024

LANGUAGES

Language Proficiencies: Native Arabic, Fluent English, Fluent French
